

Job Title: **Climate Change Specialist**

Project: **Advancing Sustainable Agriculture and Food Security in Kenya**

Location: **Kenya**

Job Type: Contract

About the Project:

We're seeking a Climate Change Specialist to support our project Advancing Sustainable Agriculture and Food Security in Kenya. This role involves developing and implementing climate-resilient agriculture practices.

Job Summary:

The Climate Change Specialist will:

- Climate analysis: Conduct climate analysis and develop strategies to support climate-resilient agriculture
- Adaptation solutions: Develop and implement climate adaptation solutions for smallholder farmers
- Stakeholder engagement: Collaborate with stakeholders, including farmers, government officials, and partners
- Capacity building: Build capacity of farmers and stakeholders on climate-resilient agriculture practices

Requirements:

- Experience: 5+ years in climate change, agriculture, or a related field
- Qualifications: Degree in Environmental Science, Agriculture, Climate Change, or a related field
- Skills: Strong analytical, problem-solving, and communication skills

What We Offer:

- Competitive contract rate
- Opportunity to work on a meaningful project impacting sustainable agriculture and food security in Kenya
- Collaborative and dynamic work environment

How to Apply:

If you're a climate change professional with experience in agriculture, please submit your application, including your resume and cover letter, to careers@mtuals.org We look forward to hearing from you!
